TO: Minerals File

FROM: Lynn Kunzler, Senior Reclamation Biologist 

RE: Site Inspection, Diversified Stone Products, Wonder #2 Mine, S/041/025, Sevier County, Utah

Date of Inspection: August 6, 2003 .

Time of Inspection: 11:00 a.m.

Conditions: Clear, warm

Participants: Michael Jackson, BLM; Tom Munson and Lynn Kunzler, DOGM

Purpose of Inspection: To check site conditions while in the area.

Observations:

This site was not active during this inspection. It appeared that there has not been any activity for several months. The only apparent change at the site from the last inspection was some work on the highwall - areas of overhang have been reshaped to eliminate this potential hazard to the public, since the site is only active for a few weeks at a time, and the public has access to the site (no gates or fences). No apparent non-compliance problems were observed.

Recommendations:

Continue to monitor the site when in the area.
